

i3 makes it easier to get anything you want in plastic cards.

Plus a few things you might not have ever thought of.

i3 Plastic Cards offers the only fully-integrated solution for creating and personalizing plastic cards. Typical card production requires numerous steps and multiple machines, with one handoff after another. i3 integrates everything into one seamless, in-line process. Cards can be delivered in days, not months. You save time. You save money. With much greater accuracy and security.

i3 Plastic Cards. So many capabilities. So little time.

Pre-press

- Pre-press support with in-house, turn-key 24 hour service
- Desktop graphics and digital proofing with Macintosh, AFGA and ESKO work stations
